

**ALPHERA**  
**warranty insurance.**  
Carefree driving. Guaranteed.

# Guaranteed better.

With ALPHERA warranty insurance.

With their innovative technology, modern vehicles make driving fun and enjoyable. As cars get older, however, the risk of unexpected repairs increases significantly.

So play it safe when you buy a vehicle and protect yourself with **ALPHERA warranty insurance.**

## Our Warranty Packages

- ALPHERA Warranty Plus
- ALPHERA Warranty Basic
- ALPHERA Warranty Aggregate

## Your Benefits:

- Long-term protection against high repair costs
- Higher resale value of your vehicle
- Maintain the value of your investment
- No administrative charge in the event of a damage claim
- No cost-sharing with ALPHERA Warranty PLUS

## Example Calculation:

Repair cylinder head gasket

Labour and parts  
(cost without warranty)

CHF 1'800

**What you pay with  
ALPHERA Warranty PLUS**

**CHF 0**

### Engine (petrol and diesel)

The insurance covers all non-electrical parts of the engine that are fully installed internally. In addition, the following parts are also insured: valve cover, camshaft housing, camshaft adjuster, electro-hydraulic valve control, cylinder head, cylinder head gasket, cylinder block, oil pan, toothed belt including tensioner and idler pulley, timing chain including guide, sprocket, timing chain tensioner, oil filter housing, oil separator, oil filter flange, oil pressure switch.

### Charging

Exhaust gas turbocharger, wastegate, vacuum advance unit of the boost control, screw-type compressor.

### Alternative drive (hybrid and electric vehicles)

Drive unit, generator.

### Fuel system (petrol and diesel)

Fuel feed module, high-pressure pump, fuel-pressure regulator, volume control valve, injection nozzles, injection valves, air-mass sensor, airflow sensor.

### Gas-powered drive (CNG)

Gas flow distributor, injectors, pressure regulator, evaporator, control unit, cylinder valves, manometer.

### Cooling system

Radiator fan, engine radiator, engine and automatic transmission fluid cooler, heating radiator, radiator for hybrid drive, thermostat, water pump, water temperature sensor.

### Transmission (manual, automatic and semi-automatic)

The insurance covers all non-electrical parts of the transmission that are fully installed internally. In addition, the following parts are also insured: gearbox, oil pan (transmission), switchbox (automatic), sensor module.

### Clutch/torque converter (automatic and semi-automatic transmission)

Torque converter, single-disc, double-disc and multi-disc clutches.

### Drive train (front, rear and all-wheel drive)

The insurance covers all non-electrical parts of the axle drive, differential gear and automatic transfer box that are fully installed internally. In addition, the following parts are also insured: gearbox, control motors (axle drive), Visco clutch, Haldex clutch, Hardy disc, cardan-shaft suspension, drive and power trains, couplings, freewheeling hub.

### Brakes (hydraulic and electric brake system)

ABS hydraulic unit, ABS sensor, ABS pressure accumulator, brake master cylinder, brake booster, vacuum pump, brake-power regulator, brake-pressure reducer, brake-power proportioning device, brake callipers, wheel-brake cylinder.

### Steering

Power-steering pump, steering gear without cups, steering stabiliser, tie rod.

### Electrical system (engine)

Alternator, multifunction controller, starter, ignition-and-starter switch, ignition box, ignition coil, ignition cable, crankshaft sensor, camshaft sensor, engine and transmission control unit.

### Comfort and convenience electronics

Electric window regulator switches and motor, electric sunroof switches and motor, front and rear window heating elements (excluding breakage), central locking motor.

### Chassis

Steering swivel, transverse link, suspension-strut mount, coupling rod, stabiliser rubber mount, coil springs.

### Extended coverage

Electrical components of the assemblies listed above, multimedia system (e.g. radio, navigation system), comfort system (e.g. air conditioning, seat heating, heated exterior mirrors, windscreen wiper motors), driver assistance system (e.g. rear-view camera, cruise control system, cornering light system), lighting (e.g. headlamp adjustment motor, LED, xenon lamps), safety system (e.g. immobiliser, airbag), exhaust system (catalytic converter, lambda probe), the electrical and hydraulic components of the cabriolet top and the high-voltage battery (if stated as covered in the insurance certificate).

### Warranty services

Non-deductible, 100% coverage of labour and material costs.
